

Update on CTC Structure, PF Deduction, and Payslip Format

- ❖ The new CTC structure mentioned below will be effective going forward and will be followed henceforth.
- ❖ Provident Fund (PF) contributions will be deducted starting from April. UANs will be created for employees who do not currently have one, and existing UANs will be activated where applicable. Once the UAN is generated, employees will receive confirmation via email and SMS. **PF contributions will be updated and reflected quarterly on the EPFO portal.(PF Deduction will happen every month From Salary).**
- ❖ Payslips will be structured clearly in line with the attached CTC details.
- ❖ For this month, PF, insurance, and tax amounts will be shown under “Other Deductions.” Once UANs are created, these components will be reflected separately in the payslip.
- ❖ Insurance coverage will be provided to all employees, and insurance cards will be circulated on or before the end of June.
- ❖ **Please note that PF will not be applicable for employees who are currently receiving a stipend. Once the employee transitions to a full salary structure, PF contributions will be initiated accordingly as per company policy.**

Monthly Salary Breakup: 2,04,000 CTC

Component	Amount (INR)
Basic (50%)	8,500
